

October 2024

Grade 2A

Thank you so much for coming out to Meet the Teacher Night. It was a pleasure to meet so many of you. We're off to a fantastic start this year together, and I look forward to working with you and your children. Please contact me anytime you have questions or concerns along the way.

Looking Back.

Our month of September has been a busy one. We have been learning all about the Bible and it's parts, learned many concepts about investigating materials in Science, have been studying communities in Social, and worked on our calendar and addition and subtraction to 18 strategies in Math. We've been building reading and writing stamina in Language Arts, in addition to many other activities. Thank you for your support at home with Club reading. This is an essential part of our Language Arts program. Please return the sheets to school as soon as they are filled out.

Weather Reminder

It's that time of year when our playground will get wet and muddy. Please remember to send splash pants, gloves and a change of clothes in your child's backpack.

Thanks!

Thank-you to those of you who were able to sign up for volunteer times. Your child loves seeing you at school, and we are so blessed by you being able to come. The parent helpers are listed on the calendar. Please note the calendar for Bible Memory verses, spelling tests, days off, Thanksgiving Chapel, chip days, character dress-up day and more for this month. October is a busy month! 😊

We will be having our Character Dress Up Day on Thursday, October 10th. Please have your child dress up that day as a book character and have them bring the book to share with their classmates.

Thank-you for keeping our class in your prayers. We look forward to a great month together!

Blessings,

Michelle Thornton and Julia Dawe
